

Insurance solutions to manage your exposure

It is always better to
negotiate an insurance claim
from a position of strength

Strength gained from knowledge of the industry sector and countries involved, strength from leading edge analysis and uncovering facts that can turn a case around and strength from using experienced expert witnesses.

Grant Thornton's specialist team are able to draw on these strengths across a broad range of solutions - all designed to manage your exposure and mitigate loss.

How we can help

Subrogated Claims

Recovering losses suffered from others requires an increase in the evidential standards to be assumed.

As subrogated recoveries are increasing, we always approach supporting your claim to the standards required for litigation.

Fraudulent Claims

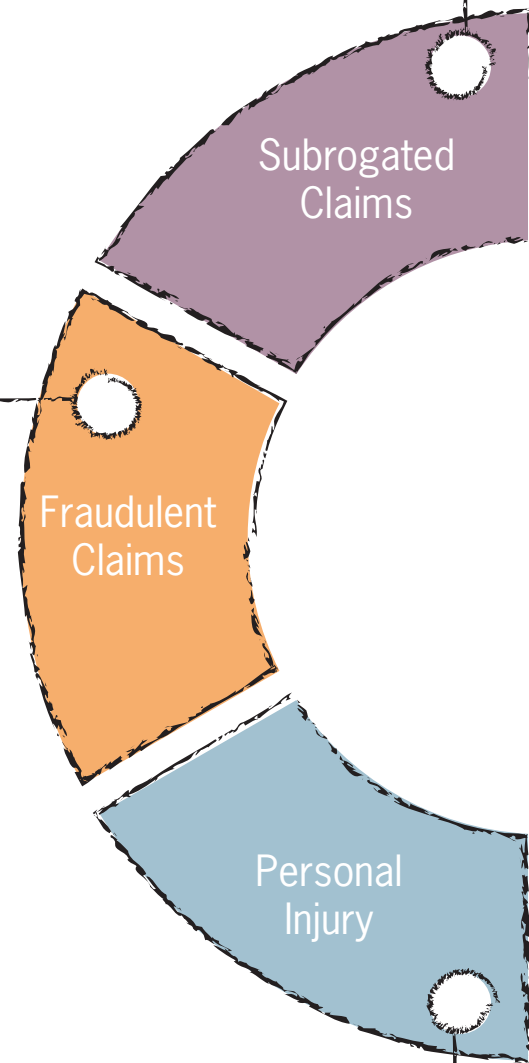

Fraudulent claims pose a significant risk for insurers. Directors and Officers insurance can also be void in the event of fraud.

We can provide you with fraud screening processes to either assess the likelihood of a claim being fraudulent or assist in defending allegations of fraud when appropriate.

Personal Injury

Our dedicated team quickly get to the heart of a claim and are leaders in the field.

By using our research and sector specialists, we deliver focused reports and targeted background checks to help quickly identify fraud and errors.

Business Interruption

Whether you are claiming for a loss suffered, or defending a claim presented to you, our team can provide you with a fully evidenced quantification of the loss.

The expertise of our Grant Thornton sector specialists, enables us to focus quickly on the key issues to support you in resolving the claim.

Product Recall

Product recalls can often be complex and time-consuming for all involved.

Our experienced team can help you to deal with the entire process from reviewing claims received, to managing the entire claims process.

Desk Top Claims Review

We operate a fixed fee 'desk-top' claims review service for your smaller, less complex claims.

We work in partnership with you to offer a fast and focused service that has consistently resulted in substantial savings to our clients.

Why Grant Thornton

- **Drawing on sector knowledge to ensure accurate claim calculation**

Grant Thornton are experts in a range of sectors – drawing on this knowledge we demonstrate an understanding of the commercial sensitivities that can effect a claim, which allows us to increase the claim value or to robustly defend it.

- **Mitigating the risks involved in international claims**

The most complex insurance claims often involve multiple jurisdictions, and not understanding differences in language, culture and the way business is conducted can pose a real threat to the claims process. Grant Thornton International has more than 500 offices in over 100 countries and can manage your exposure globally.

- **Able to defend claims if they become litigious**

We will endeavour to work with you to prevent claims from becoming litigious – however as experienced expert witnesses, we can provide a consistency and continuity of service and also give independent expert evidence to ensure the best possible outcome for you.

- **A specialist service for not as much as you would think**

We understand that it can often be more cost effective to deliver our services by utilising insurance specialists across our regional offices. This allows us to ensure the best possible outcome for your claim, whilst ensuring we keep the costs down.
